As Chief of Police for the Apex Police Department, I would like to formally request regional access to Lowe's owned Flock Safety Systems and/or LiveView. This technology will assist in preventing or investigating criminal activity in the local community we both serve. Lowe's technology and my department's access to such will only be used for bona fide investigations, which are documented within our department and via audit trail within the Flock Safety platform. These investigative tools and technology will not be permitted for personal use, for use on unauthorized devices or by unauthorized users within our department. I understand if the technology is not used correctly, Lowe's reserves the right to terminate the department's access to Lowe's owned Flock Safety Systems and/or LiveView.

Sincerely,

A handwritten signature in blue ink that reads "Jason P. Armstrong".

Jason Armstrong
Chief of Police

Protectors of the PEAK
A Nationally Accredited Law Enforcement Agency
